The Building Trades Employers Association has been in constant discussions with the Governor's Office and Mayor's Office in order to determine how contractors should proceed with the various Executive Orders set forth by NYS Empire State Development Corporation and NYC Department of Buildings. Here is what we know as of the date of this publication.

We will continue these efforts in coordination with our Member Associations and report them to you through reports of this nature which you can find on the website we set up to focus on information relating to the Coronavirus. Please go to **www.bteany.com/covid19/** where these updates will be posted and for other critical information designed for contractors.

Questions?

Please submit any questions you may have and the BTEA will make every effort to get them answered and report it to the membership. Forward those questions to: **dranshte@bteany.com**
